The new Friday Night Funkin’ Week 7 has been published just a few hours ago on Newgrounds by Ninja Muffin and you can already play online a “preview” of what will be the new update of the game. What can already be confirmed is that week 7 includes Tankman as a new opponent, with 3 new songs (Ugh, Gang and Stress). The truth is that this was already known many weeks before the official update. On FNFunkin you can download and play Friday Night Funkin’ week 7 online, even though it is only available exclusively on Newgrounds. Play Friday Night Funkin WEEK 7 Unlocked Online You can play FNF Week 7 Unlocked online and enjoy the 3 new VS Tankman songs, including Pico’s special appearance in the third showdown. (Click on the game to load) Download Friday Night Funkin’ WEEK 7 for PC Although it is well known that FNF week 7 has not yet been released for download, the truth is that there have been numerous users and developers who have provided us with a self-made PC port of the Newgrounds version. As of today, there are many options to download FNF Week 7 for Windows PC, but there is one that stands out above all others. This option not only allows us to access from our PC to the complete week 7, but also includes many more new features and improvements, highlighting more than 10 different MODs of great quality. In addition, it is available for both PC and mobile. Link -> Download Friday Night Funkin’ Week 7 for PC What’s new to expect from Friday Night Funkin’ Week 7 The possible official inclusion of MODs in the game is one of the best news that could be expected, as MODs add infinite content to the game. Moreover, it has already been demonstrated in these last months that there are MODs so good that they can become part of the FNF story (As could be VS Whitty, VS Tricky, Sarvente’s Mid-Fight Masses…). In addition to this big news, the new Friday Night Funkin’ update brings with it other possible new features: Possibility to add custom inputs. New leaderboard system (which in my opinion will give much more life to the game, since everyone will want to fight to be at the TOP). New accounts and login system. New option to personalize the color of the notes. New Customize the color of the notes. New volume options. We will keep an eye on the news as they arise to update this post with the new information. Now, more than ten years later, it has been very successful on platforms such as TikTok and Twitch, where thousands of users are recreating the game and imitating its moves and dances in the most original videos. In case you still do not know it, we will tell you that this is a musical game where your mission will be to get a kiss from your girlfriend but to do so you have to convince her father. How? Well, in the most logical way: by singing in rap battles. Follow the rhythm of the music and defeat all the characters Beyond the moral component of the approach, this is a game of skill where we will have to follow the arrows on the screen to tap the buttons in the right direction, following the indicated rhythm, in the style of the classic arcade dance machines. Test your sense of rhythm and win every rap battle. With the movements we make to the rhythm of the music, the character will rap against the father. Also, we will not have to lose sight of the lower status bar, which indicates how close we are to winning or losing. Week by week, or level by level, we will see the plot advance and how our character will have to face new challenges and new battles to continue his fight for love. Overall, this FnF offers good graphics, and above all, a simple and addictive game mechanic very easy to follow, with easy-to-handle controls. In case you have any doubts, it offers a tutorial and has two game modes: a free mode in which you will rhyme endlessly, and a story mode, where you can face one character after another as long as you manage to defeat them. Finally, it should be noted that this is an open-source game so that many developers are creating Mods with their own version of the story, with new characters, or with different music. What’s new in the latest version Pre-release version of the new stable version that will be out some time soon. Ads keep us online. Without them, we wouldn’t exist.
