Video background eraser mod apk. Video background eraser apk download.

Using your computer, phone, or tablet, click Upload to find an image you have saved already, or paste a link to any image location on the web like Instagram, Google Drive, Google Images, or Instagram. The Kapwing Background Remover lets you use both the Magic Wand and Erase tools. With the Magic Wand, just click anywhere on an area you want to remove from your photo and click "Remove Pixels." To change how much is erased when you click, adjust the Sensitivity slider. The tool will take a few seconds to remove the background, but once the background has been removed, you will see the main foreground of your video in real time. You can then add an image or a different background to go with your original video. You can also take the video with background removed and add it as an overlay on top of another video. Kapwing's Studio editor can also be used to time the videos out together so that a video with the background removed can be used with another video. You can trim the videos easily and add additional things like text and images. We hope you enjoy this free tool from Kapwing!
