Complimentary photo: Ian Gavan / Getty Images Anyone who has a random knowledge of films can name at least some bad movies, but as a fan, we tend to assume that actors were happy to do the job. No, that's not always the case. Let's just say it takes a supreme level of terrible to make actors who were paid to risk burning career bridges for waste of movies they hated. The actors' reasons end up in bad movies vary. Some actors were forced by binding contracts to play particular characters or create a specific number of films. Others end up in situations where the screenplay rewrites or a poor ruin what they thought would be good movies. Take a look at these best films that play actors are over to hate. The actor Bob Hoskins, best known for his role in which rabbit framed Roger Rabbit, is infamous to play Mario in the 1993 Super Mario Brothers movie. He went to record with the Guardian saying that it was not only the worst job he had ever done, but also that it was his "great disappointment" as an actor. Complimentary photo: Jones / Standard evening / Hulton Archive / Getty Images Hoskin's problems with the film do not surprise, considering having had numerous problems during the shooting. It has been cited several times by making snarky and sarcastic statements on production. Also, he frequently drank whiskey between he takes during production. Mark Wahlberg is well known for having a Hollywood career that emulates an eight-volume with many high and minimal. What could surprise the cameramen is that its greatest cinematic regret has actually earned him a lot of critical praise. The film is Boogie Nights. Complimentary photo: Gabriel Grams / Filmmagic / Getty Images Wahlberg's two main reasons, the main reasons for his regret for the role are a combination of his faith in God and his status as a father. With time to reflect, he feels that he made poor choices on some roles, and hopes that God is a fan of the film and forgiving. Sylvester Stallone had a long and eclectic career that began with softcore pornography and moved into action roles like Rocky and Rambo that made him a family name. With a career dating back to the late 1960s, it's no surprise that she made movies that she regrets. Complimentary photo: Tristar / Getty Images One of the films that considers its worst is the escape plan 2: Ade. Despite the film having Stallone's star power, Dave Bautista and 50 cents, it was not enough to save what was considered to be a terrible production and a terrible story. A famous actor who is also recording to be dissatisfied with the production of Super Mario Brothers. The film was Dennis Hopper. Best known for his role inwithout a cause - and to be difficult to work with â€¦ "Hopper was openly vocal about why he was involved with Super Mario Brothers: a heavy salary. Photo courtesy: Charley Giaryr / Getty Images for cinevegas Never even to be shy in any situation, a notorious day on set. Hopper spent three hours shouting at al aland wife co-directors, Rocky Morton and Annabel Jankel, for the endless series of script changes that occurred during filming. Perhaps his behavior contributed to Hoskinsâs negative experience. Catwoman is known as one of the worst movies of all time, and Halle Berry is known as her worst movie she regrets taking. One of the most colorful anecdotes to emerge from the disaster was Berry who took part in the Razzie Awards to receive her "award" for worst actress. Photo Courtesy: LLUIS GENE/AFP via Getty Images In recent years, she has admitted that her involvement in the film has brought positive things. Through the role, she learned two forms of martial arts that were useful to her in the X-Men, meeting new people and earning enough money to change her life. So, that's it, too. Dev Patel became internationally famous for his role in the award-winning film Slumdog Millionaire. As a result, much attention was devoted to his next part, which was in the production of M. Night Shyamalan, The Last Airbender. Photo Courtesy: Lia Toby/Getty Images Years after The Last Airbender was shot down at the box office, Patel apologized to fans of Nickelodeon's original show. In several interviews, he expressed how his experience in the movie made him stop working in major Hollywood productions because he felt ignored by the director. Stop or My Mom Will Shoot is famous for a couple of reasons. One of the most important is the effort that Sylvester Stallone made to distance himself from the production. He literally called it "perhaps one of the worst movies in the entire Solar System". Photo Courtesy: Michael Pulland/Getty Images Another reason for his fame is that Stallone took the role based on Arnold Schwarzenegger, who publicly pretended to be interested in the movie. At that time, Schwarzenegger and Stallone were stuck in a competition for action heroes, so he did it to provoke Stallone to assume a certain terrible role. It's no secret that we live in an age when comic book adaptations have found mass audiences all over the world. This turning point has led film icons such as Anthony Hopkins and Robert Redford to take iconic roles in the Marvel Cinematic Universe. Photo Courtesy: Lars Niki/Corbis via Getty Images However, Oscar-winning Sally Field expressed regret for playing Aunt May in the 2012 Spider-Man movie The Amazing Spider-Man. Initially, she accepted the role as a favor to a friend, but was baffled by the fact that the role was not concrete. It could break the hearts of legions of Twilight fans to discover that the actor who played Edward, Robert Pattinson, said in interviews that he hated the part he played. He complained that the character lacked substance, and he didn't have the opportunity to do vampire things. Very bloodthirsty, Photo Courtesy: Franco S. Origlia / Getty Images However, now that the intensity that surrounds film films Pattinson said he could better appreciate the fans' enjoyment of the show. He also complimented the film's soundtracks, believing they were ahead of their time. Daniel Radcliffe is a familiar name, thanks to the role of Harry Potter at the age of 11 and the leading role in eight subsequent films. Radcliffe said he enjoyed working on every movie up to the sixth grade. Photo Courtesy: Ian Gavan/Getty Images He explained that he didn't like the sixth film, because until then he had managed to see himself grow as an actor. One of the most likely contributors to this lack of progress is that he started drinking heavily after turning 18, according to his own admission. Titanic is a movie known for shattering box office records and for being a critical treasure. So, it might be surprising that the lead actress, Kate Winslet, hates her portrayal in the movie. She admitted having difficulty watching her performance in general, but the Titanic was the worst criminal for her. Photo Courtesy: CBS via Getty Images Winslet has publicly stated that he wants to review the role and redo every single scene of the film. This is certainly a surprise for the difficulty of shooting, including the risk of drowning. Jessica Alba's experience in The Fantastic Four: Rise of the Silver Surfer was so terrible that she almost stopped acting. The director, Tim Story, criticized her so harshly that she doubted her acting ability and career choice. Photo Courtesy: Randy Shropshire/Getty Images for InStyle The scene in question was about Alba crying, and the director fired her because he thought her tears were "too real" and instead she needed to cry nicer. This experience acted as a catalyst to go beyond the movies and start his business. In recent years Brad Pitt has become famous as much for his ex-marriage to Angelina Jolie as for his acting. However, during the 1990s, he was known as an iconic movie star who was not afraid to express his opinion on the roles he played. Photo Courtesy: Ke.Mazur/WireImage A role that is known to be quite critical was in the movie The Devilâs Own. His incandescent comments revolved around production starting with a script, having been forced to stop using that script and continue production without the cast and the crew were told to come up with something while they were filming. What's The Indiana Jones franchise is known to be a great series of movies, with the exception of the Kingdom of the Crystal Skull of 2008. One of the often cited reasons why this movie is inferior to the original trilogy is the casting of lead actor Shia LaBeouf. Photo Courtesy: Jim Spellman/WireImage/Getty Images LaBeouf accuses himself and director Steven Spielberg of âAbandoned the ballâ As for the film. The actor feels the films are dated Missing of any substance. After leaving the movies behind, he has now centered his career around the art of performance. Jamie Lee Curtis has starred in several well-welcomed films, but the critical and commercial illness hates up to date is a film called virus. This film speaks of a tug crew that stumbles on an abandoned ship that subsequently appears to contain robots and aliens. So, not a virus? Photo of courtesy: Getty Images while she was opened on how much she hates the film, she managed to find a positive side. In 2012, Curtis said IGC that when you and her friends of her compare the bad films in which they were, she always wins, thanks to her performance in viruses. Michelle Pfeiffer had a long career in Hollywood, so she's not surprised there are a couple of films that don't overlook with affection. One of these films was his first important role as one of the drivers in fat 2. Photo of courtesy: Ron Galella / Ron Galella Collection Via Getty Images before, Grasso 2 was considered both a commercial and critical failure, and ended up making it difficult for Pfeiffer to find roles for more than a year after its version. She is questioning by claiming that she not only hated the film with a revenge but she was shocked by what was proved to be terrible. Ben Affleck had a mixed career full of disputes both lit and out set, but all the first films in which he worked, the 2003 film version of Daredevil is the one he hates more. While the film was scarcely received by critics and the public, the hatred of affleck for the film is personal. Photo of courtesy: 20th century-fox / getty images later in his career, has increased for the role of Batman and quoted him reason for the hearing that he finally has the opportunity to make a good superhero movie. Unfortunately, this did not happen, since the result was Batman v. Superman: Dawn of Justice. Arnold Schwarzenegger's cinematographic career started at the end of the age of 60, but he did not break to the mainstream until 1982, Conan the barbarian. He is not surprising that there are several films that the actor would like to forget. Photo of courtesy: Rolf Konow / sygma / sygma via getty images one of those is the retaliation of the role of breaking the barrier of Schwarzenegger, Conan, returning to Sonja red. The sexist film himself performed enough to prevent a third of Conan's film to be done. Schwarzenegger joked that if his sons never behave badly, they are sent to their rooms to watch the movie 10 times. Viola Davis is a critical acclaimed actress who has earned many awards, including Emmy, a Golden Globe, an Oscar and two Awards Tony. With so much critical acclamation under her belt, she makes sense to pay attention when she criticizes her work of her. Photo of courtesy: Brian Bowen Smith / ABC Via Getty Images Davis is under discussion for having The way the film has revealed the help. The film should have shown black women in 1963 becoming part of the movement of civil rights. Davis says the film has not succeeded in accurately telling the story you promised to say, to say. When Natalie Portman first enrolled in the Marvel Cinematic Universe, she helped add a great power to the series. When Thor's time came: The Dark World, he used some of his power to try to direct the Marvel towards a more feminist direction. Photo courtesy: Dave Kolinsky/Getty Images Portman helped put director Patty Jenkins to the project's helm, but it was short-lived. After a brief confrontation on the creative direction, Marvel fired Jenkins and forced Portman to continue his role. This has unboated his experience, and is not yet reappeared in the series. Alec Baldwin has never been a silent person on his own opinions and feelings, especially when it comes to his work. Of all the unusual things he did, the film that seems to hate more is the film adaptation of the musical Rock of Ages. Photo Courtesy: Roy Rochlin/FilmMagic/Getty Images Very soon, Baldwin began to perceive that the film was going wrong. By the first week, he tried, without success, to rescind the contract. He tried to use the excuse of a disease, but the production house did not buy it and forced it to remain in the film. One of Channing Tatum's greatest regrets is a film he's done anything to avoid doing. When they sent him the live-action screenplay from G.I. Joe, he found it so bad that he told his agent he wouldn't. Photo Courtesy: Jeffrey Mayer/WireImage/Getty Images However, due to a contract for three films, Tatum was asked to act in the film or face a lawsuit. Even though his career resumed, he had to resist the acting of a second film by G.I. Joe who hated "but only briefly, since his character suffered a rapid disappearance in the sequel. While the film Daredevil was nothing to be proud of, film studios believed it deserved a spin-off. The result was Elektra, played by Jennifer Garner who took over his role as Daredevil. Initially, things seemed to go in a positive direction, with the director who wanted to involve Kevin Smith to help him in the script. Photo Courtesy: Foc Kan/WireImage/Getty Images Instead, he was fired, and the result was a disaster he ended up bombing. Garner was very explicit about how much he hated the final product. He finally said that the only reason he was in the film was contractual obligations. Another case where an actor was forced to take a role he hated, due to contractual complications, was Mike Myers in the main role of The Cat in the Hat. After the success of Austin Powers' first film, Myers was asked to write and act in another comedy. Photo Courtesy: Jon Kopaloff/FilmMagic/Getty Images At some point, there was a failure in communication, and Myers refused to use the script he had written, causingcause and then a counterprocedura. The end of the legal action saw Myers interpret a disturbing version of the Cat, which hurt. Apparently, there is a trend inOffer actors more film contracts and then using that as a lever to force them to act in the films they hate. Edward Norton appeared only in The Italian Job after a long process involving causes threats. Photo Courtesy: Axelle / Bauer-Griffin / Filmmagic / Getty Images After its release, the film has exhibited financially and critically, but Norton is known to have contempt for the film. There was a sequel trapped in development hell for 15 years, but if it is ever done, don't expect Norton return to him. Bill Murray spoke much about how much he hates Garfield's films, thanks to their poor writing and direction. You're probably thinking: "But he signed, right?" Well, the reason why he ended up launching in the role of Garfield is practically like a comedy (errors) itself. Photo Courtesy: Stefan Hoederath / Getty Images Murray was sent the script, and when he saw that it was written by Joel Cohen, he assumed that he was Joel Coen (of the legendary Coen brothers) and he didn't worry about reading it before Register. When Murray realized he was mistaken by him, he was already trapped in a sound booth for two films. Emily Blunt has grown to fame, thanks to her appearance in the film The Devil Wears Prada. Due to this performance, several studies came to call it, including Marvel, who wanted to launch her as Black Widow. Can you imagine it? Pictures of courtesy: Jason Laveris / Filmmagic / Getty Images However, as soon as Fox felt that Marvel was interested in Blunt, invoked her contract with them and forced her to star in the next film adaptation of Gulliver's travel. While the movie ended up bombing, she didn't destroy her career as she was able to move more successfully. Needless to say, Blunt has no loyal memories of this film. Keanu Reeves was already a star when Matrix's first film took him to new heights. However, Superstardom was not able to save him from a "friend" who falsified Reeves's signature to make the actor appear in the Film The Watcher. Thing? Photo of courtesy: Karwai Tang / Wire Images / Getty while Reeves initially fight the contract, he could not produce evidence that the signature was forged, so appeared in the film. However, when he was released, he did nothing to promote him. As soon as the 12-month NDA has expired, Reeves came out with the truth about why it appeared in the film. Roy Scheider showed up at the international celebrity after his appearance in the 1975 Jaws film. However, he hated the first film, so he had no desire to appear in the sequel. Universal had other plans and decided to invoke the actor's contract to make him Star in Jaws 2. Photo Courtesy: Universal Pictures / Getty Images Scheider ended up being the only original member of Jaws Cast to appear in the sequel. After being legally forced to participate, it's safe to say that the actor didn't have a pleasant And he didn't have kind words to save for Jaws 2. It takes a special film for the whole whole Not only do you refuse to do the press for it, but also to report the film as a huge regret. This terrible film is known as film 43. It is presented as a comic anthology written by 20 people and filmed in several years of 14 different directors. Am I problematic? Photo of courtesy: Frederick M. Brown / Getty Images The resulting film is a mess of 14 different plot lines that are impossible to follow. From some miracle, this embarrassment of a movie has succeeded not only to recover its costs, but make a small profit at the box office. No one was more surprised than the cast, which included great as Kate Winslet, Hugh Jackman, Gerard Butler and Chris Pratt. Batman & Robin, the sequel to Tim Burton produced Batman Forever, saw George Clooney donate the head of the famous Gotham vigilante. Previously, the Live-Action Franchise had seen both Michael Keaton and Val Kilmer take a stab to play Bruce Wayne, so Clooney had some big shoes â "or boots â " to fill. Like Batman, Clooney faces with Mr. Freeze (Arnold Schwarzenegger) and Poison Ivy (Uma Thurman), but, in real life, he addressed the consequences of making a truly terrible film. Photo Courtesy: Warner Bros. Images / Sunset Boulevard / Corbis Through Getty Images The film was met with overwhelmingly negative reception, so much so that the cast and crew â â "including Clooney and director Joel Schumacher â â " they looked for to cancel, and apologize for, Batman & Robin. â âThat only that I would have thought I would have destroyed the franchise until someone else has brought back years later and changed it. "Clooney said. â âThen I thought at the moment that this would have been a good career move. It was not. "As noted the Batman veterinarian, we are only very grateful for reboot Chris Nolan Dark Knight. Although many film-goers will recognize Sir Alec Guinness from his role as Jedi Master-Turned-Hermit Obi-Wan Kenobi, the cinephiles know that Guinness, a laudato stage actor, made a name for himself in classics like Lawrence of Arabia and great expectations. In 1957, he appointed both the Bafta and the Academy Award for the best actor thanks to his performance in The Bridge on the Kwai river. Photo Courtesy: Sunset Boulevard / Corbis Via Getty Images said this, Guinness was finally shocked â â "and a little annoyed â â " from the new fame that Kenobi offered him. â âThe money is part, I'm sorry to have undertaken the film â â, said the actor during the 1983 Star Wars shooting: episode Viâ â "Return of the Jedi, the third entry of the series. â âI don't likes them quite well, but it's not a work of acting, the dialogue â â "that is deplorable â â "continues to be changed and only slightly improved.â â regardless of the thoughts of Guinness on the script, â â It was appointed for a better Oscar support actor for its performance in the first film, Star Wars: IV episode - a new hope. When Nicole Kidman has With the colleague director Aussie Baz Luhrmann for the 2002 Moulin Rouge, he finished with one of his most iconic performances. He was also called Kidman. Kidman 1939 and 1942 - including the bombardment of darwin during World War II - Australia, is at its centre, a love story, both a romance and a story about a chosen family. "It's impossible for me to connect to [the film] emotionally," kidman said a sydney radio station. even if the film is the third biggest Australian film of all time, right behind crocodile dundee (1986) and mad max: fury road (2015.) the Oscar winning actress insists that "can not watch this film and be proud of what [he] did." loosely based on the robert ludlum novel, 2007 the bourne actonum last, which was preceded by the bourne identity in ultimatum, matt damon resumes his role as a former CIA killer (and amnesiac) jason bourne while searching for information about his past - and becomes a target of assassination itself. courtesy photo: koichi kamoshida/Getty images as for previous installations, tony gilroy wrote the script (this time together with scott z. burns and george nolf.) but, according to damon, it was not the best work of gilroy. Although ultimatum holds the highest score from the first three rataments on tomatoes, damon said qg that "[the script] was unreadable. - career sex. I could put this on ebay and it would be game for that guy. It's terrible. It's really embarrassing. He was making a round, basically, and took his money and left." Damon observed, however, that he did not blame gilroy only to "take a boat load of money and deliver in what he delivered in." The ubisoft Assassinio is one of the biggest success stories of the video game industry. Since 2019, the franchise, which has produced numerous spin-offs and sequels, has sold over 140 million copies, making it one of the best-selling franchises of all time games. looking to capitalize on that success, ubisoft green lit a film adaptation, which landed Michael Fassbender as his star. photo courtesy: hector Vivas/LatinContent via getty images when the murder creed movie hit screens in 2016, he had really dismal box office returns - and even critics were not too impressed. when asked by Movie'n'co about the performance of the film, fassbender admitted that "we lost some opportunity", this is generous for a movie that costs a huge \$125to make, for very little return. (The movie had a gross lower than expected of about \$240 million worldwide.) "I'd make it more fun [if I could do] Otherwise], â ââ, "said Fassbender. â âââ "I think we wanted too seriously and I would have had much faster action. "Fastest. â ââ
